ACADEMIC RESOURCE • R23 / MIC23 REGULATIONS

COMPUTER NETWORKS

MASTER QUESTION BANK (UNITS I TO V)

A comprehensive unit-wise compilation of all examination questions (2 Marks, 5 Marks & 10 Marks), fully categorized and extracted from official university end-semester question papers, model papers, and mid-term examinations (CN_MID-1_Important_Questions.pdf & MID-2 IMP QUESTIONS.pdf).

Verified Paper Extraction Sources:

- **University Model Question Paper 1 (Paper-1)** — Official Model Examination
- **University Model Question Paper 2 (Paper-2)** — Official Model Examination
- **University Previous Question Paper (Paper-3)** — Regular/Supplementary Exam (April 2026)
- **Mid-Term Examination 1 (MID-1)** — Official Mid-1 Question Bank & Exam
- **Mid-Term Examination 2 (MID-2)** — Official Mid-2 Question Bank & Exam

Document Structure: Every unit features a verified source image catalog header, followed by dedicated separate pages for **2-Mark Questions (Section A)**, **5-Mark Questions (Section B)**, and **10-Mark Essay Questions (Section C)**.

UNIT – I: INTRODUCTION TO COMPUTER NETWORKS & PHYSICAL LAYER

QUESTION BANK

VERIFIED EXAM SOURCES **UNIT-I: Introduction to Computer Networks & Physical Layer**

Official Question Extraction Source Catalog:

- University End-Semester Model Question Paper 1 (Paper-1)
- University End-Semester Model Question Paper 2 (Paper-2)
- University Previous Question Paper - April 2026 (Paper-3)
- Department Mid-Term Examination 1 (MID-1)

CURATED QUESTION BANK

SECTION A: 2-MARK QUESTIONS (SHORT ANSWER)

2 MARKS EACH

Q1. What is the primary role of the OSI reference model in networking? (Paper-1)

Q2. List the advantages and disadvantages of Mesh Topology? (Paper-1)

Q3. List and briefly explain any three functions of the Network Layer in OSI. (Paper-2)

Q4. State two key differences between the OSI Transport Layer and TCP/IP Transport Layer? (Paper-2)

Q5. Mention two key differences between OSI and TCP/IP models. (Paper-3)

Q6. What is coaxial cable and where is it commonly used? (Paper-3)

Q7. Define a computer network (MID-1)

Q8. What are LAN, MAN and WAN? (MID-1)

Q9. List the different types of network topologies (MID-1)

Q10. What is the difference between guided and unguided transmission media? (MID-1)

VERIFIED EXAM SOURCES

UNIT-I: Introduction to Computer Networks & Physical Layer

Official Question Extraction Source Catalog:

- University End-Semester Model Question Paper 1 (Paper-1)
- University End-Semester Model Question Paper 2 (Paper-2)
- University Previous Question Paper - April 2026 (Paper-3)
- Department Mid-Term Examination 1 (MID-1)

CURATED QUESTION BANK

SECTION B: 5-MARK QUESTIONS (MEDIUM / CORE EXAM QUESTIONS)

5 MARKS EACH

Q1. What is a Computer network? Explain the OSI model with diagram? (Paper-1)

Q2. Explain Applications of Computer networks? (Paper-1)

Q3. List the advantages and disadvantages of Bus and Ring Topologies? (Paper-1)

Q4. Explain optical fiber cable with the advantages and disadvantages? (Paper-1)

Q5. Explain the TCP/IP model with diagram? (Paper-2)

Q6. Explain about coaxial cable with the advantages and disadvantages? (Paper-2)

Q7. What is Network topology? Explain different types of network topologies? (Paper-2)

Q8. List the differences between LAN,MAN,WAN? (Paper-2)

Q9. Explain the following network topologies with diagrams, advantages, and disadvantages: Ring topology and Mesh topology. (Paper-3)

Q10. Explain the TCP/IP Reference Model and compare it with the OSI Reference Model. (MID-1)

Q11. Explain guided transmission media with reference to twisted-pair cable, coaxial cable and fiber-optic cable. (MID-1)

UNIT – I: INTRODUCTION TO COMPUTER NETWORKS & PHYSICAL LAYER

QUESTION BANK

VERIFIED EXAM SOURCES **UNIT-I: Introduction to Computer Networks & Physical Layer**

Official Question Extraction Source Catalog:

- University End-Semester Model Question Paper 1 (Paper-1)
- University End-Semester Model Question Paper 2 (Paper-2)
- University Previous Question Paper - April 2026 (Paper-3)
- Department Mid-Term Examination 1 (MID-1)

CURATED QUESTION BANK

SECTION C: 10-MARK ESSAY & COMBINED QUESTIONS (FULL UNIVERSITY PATTERN)

10 MARKS EACH

QUESTION 1 [10 MARKS]:

Full 10M University Pattern

(a) What is a Computer network? Explain the OSI model with diagram? (Paper-1)

(b) Explain Applications of Computer networks? (Paper-1)

QUESTION 2 [10 MARKS]:

Full 10M University Pattern

(a) List the advantages and disadvantages of Bus and Ring Topologies? (Paper-1)

(b) Explain optical fiber cable with the advantages and disadvantages? (Paper-1)

QUESTION 3 [10 MARKS]:

Full 10M University Pattern

(a) Explain the TCP/IP model with diagram? (Paper-2)

(b) Explain about coaxial cable with the advantages and disadvantages? (Paper-2)

QUESTION 4 [10 MARKS]:

Full 10M University Pattern

(a) What is Network topology? Explain different types of network topologies? (Paper-2)

(b) List the differences between LAN,MAN,WAN? (Paper-2)

QUESTION 5 [10 MARKS]:

Full 10M University Pattern

(a) Explain the following network topologies with diagrams, advantages, and disadvantages: Ring topology and Mesh topology. (Paper-3)

(b) Explain the TCP/IP Reference Model and compare it with the OSI Reference Model. (MID-1)

QUESTION 6 [10 MARKS]:

Full 10M University Pattern

Explain guided transmission media with reference to twisted-pair cable, coaxial cable and fiber-optic cable. [Comprehensive Essay Question with Architecture, Working, Diagram & Analysis] (MID-1)

VERIFIED EXAM SOURCES **UNIT-II: Data Link Layer & Error Control**

Official Question Extraction Source Catalog:

- University End-Semester Model Question Paper 1 (Paper-1)
- University End-Semester Model Question Paper 2 (Paper-2)
- University Previous Question Paper - April 2026 (Paper-3)
- Department Mid-Term Examination 1 (MID-1)

CURATED QUESTION BANK

SECTION A: 2-MARK QUESTIONS (SHORT ANSWER) — 2 MARKS EACH

Q1. Enumerate any four responsibilities of the Data Link Layer in OSI Model? (Paper-1)

Q2. What are the different types of Errors that occur in the data in a network ,give Example? (Paper-1)

Q3. Explain the importance of framing in the Data Link Layer? (Paper-2)

Q4. Define flow control and explain why it is essential? (Paper-2)

Q5. What is one's complement checksum? Where is it used? (Paper-3)

Q6. What is CRC? (MID-1)

Q7. Explain the basic idea of the Stop-and-Wait protocol. (MID-1)

VERIFIED EXAM SOURCES **UNIT-II: Data Link Layer & Error Control**

Official Question Extraction Source Catalog:

- University End-Semester Model Question Paper 1 (Paper-1)
- University End-Semester Model Question Paper 2 (Paper-2)
- University Previous Question Paper - April 2026 (Paper-3)
- Department Mid-Term Examination 1 (MID-1)

CURATED QUESTION BANK

SECTION B: 5-MARK QUESTIONS (MEDIUM / CORE EXAM QUESTIONS)

5 MARKS EACH

Q1. What is Cyclic Redundancy Check? Calculate CRC code using CRC12 for the following data: 100100,by using the following generator polynomial:x12 +x11+x3+x2+x+1? (Paper-1)

Q2. Explain Stop and Wait ARQ protocol with diagram? (Paper-1)

Q3. Explain how Hamming code can be used for Error detection in computer networks? Calculate 7 bit Hamming code for the following data:1011? (Paper-1)

Q4. Explain the services provided by Data link layer? (Paper-1)

Q5. Explain GO-BACK-N sliding window protocol with diagram? (Paper-2)

Q6. Mention different types of Error detection methods ,Explain any two methods with example? (Paper-2)

Q7. What is Burst Error?Find the Checksum for the following data: 10110011101010110101101011010101 (Paper-2)

Q8. Explain Selective Repeat sliding window protocol with diagram? (Paper-2)

Q9. Explain fixed-size framing with an example. (Paper-3)

Q10. Explain Checksum with suitable example. (Paper-3)

Q11. Explain one-bit sliding window protocol with diagram and example. (Paper-3)

Q12. Explain Point-to-Point Protocol. (Paper-3)

Q13. Explain fixed-size and variable-size framing techniques with suitable examples. (MID-1)

Q14. Explain Sliding Window protocols with reference to One-bit, Go-Back-N and Selective Repeat protocols. (MID-1)

VERIFIED EXAM SOURCES **UNIT-II: Data Link Layer & Error Control**

Official Question Extraction Source Catalog:

- University End-Semester Model Question Paper 1 (Paper-1)
- University End-Semester Model Question Paper 2 (Paper-2)
- University Previous Question Paper - April 2026 (Paper-3)
- Department Mid-Term Examination 1 (MID-1)

CURATED QUESTION BANK

SECTION C: 10-MARK ESSAY & COMBINED QUESTIONS (FULL UNIVERSITY PATTERN)

10 MARKS EACH

QUESTION 1 [10 MARKS]:

Full 10M University Pattern

(a) What is Cyclic Redundancy Check? Calculate CRC code using CRC12 for the following data: 100100,by using the following generator polynomial:x12 +x11+x3+x2+x+1? (Paper-1)

(b) Explain Stop and Wait ARQ protocol with diagram? (Paper-1)

QUESTION 2 [10 MARKS]:

Full 10M University Pattern

(a) Explain how Hamming code can be used for Error detection in computer networks? Calculate 7 bit Hamming code for the following data:1011? (Paper-1)

(b) Explain the services provided by Data link layer? (Paper-1)

QUESTION 3 [10 MARKS]:

Full 10M University Pattern

(a) Explain GO-BACK-N sliding window protocol with diagram? (Paper-2)

(b) Mention different types of Error detection methods ,Explain any two methods with example? (Paper-2)

QUESTION 4 [10 MARKS]:

Full 10M University Pattern

(a) What is Burst Error?Find the Checksum for the following data: 10110011101010110101101011010101 (Paper-2)

(b) Explain Selective Repeat sliding window protocol with diagram? (Paper-2)

QUESTION 5 [10 MARKS]:

Full 10M University Pattern

(a) Explain fixed-size framing with an example. (Paper-3)

(b) Explain Checksum with suitable example. (Paper-3)

QUESTION 6 [10 MARKS]: Full 10M University Pattern

(a) Explain one-bit sliding window protocol with diagram and example. (Paper-3)

(b) Explain Point-to-Point Protocol. (Paper-3)

QUESTION 7 [10 MARKS]: Full 10M University Pattern

(a) Explain fixed-size and variable-size framing techniques with suitable examples. (MID-1)

(b) Explain Sliding Window protocols with reference to One-bit, Go-Back-N and Selective Repeat protocols. (MID-1)

VERIFIED EXAM SOURCES **UNIT-III: MAC Sublayer & Channelization**

Official Question Extraction Source Catalog:

- University End-Semester Model Question Paper 1 (Paper-1)
- University End-Semester Model Question Paper 2 (Paper-2)
- University Previous Question Paper - April 2026 (Paper-3)
- Department Mid-Term Examination 1 & 2 (MID-1 / MID-2)

CURATED QUESTION BANK

SECTION A: 2-MARK QUESTIONS (SHORT ANSWER) — 2 MARKS EACH

Q1. Briefly Explain the core difference between random access and controlled access protocols? (Paper-1)

Q2. Describe the working of pure ALOHA protocol? (Paper-1)

Q3. What is CSMA and how does it reduce collisions? (Paper-2)

Q4. Compare FDMA, TDMA, and CDMA in channelization? (Paper-2)

Q5. What is random access in MAC protocols? (Paper-3)

Q6. List the services provided by the network layer to the transport layer. (Paper-3)

Q7. Differentiate between CSMA/CD and CSMA/CA. (MID-1 / MID-2)

Q8. What is channelization? Name the channelization techniques. (MID-1 / MID-2)

VERIFIED EXAM SOURCES

UNIT-III: MAC Sublayer & Channelization

Official Question Extraction Source Catalog:

- University End-Semester Model Question Paper 1 (Paper-1)
- University End-Semester Model Question Paper 2 (Paper-2)
- University Previous Question Paper - April 2026 (Paper-3)
- Department Mid-Term Examination 1 & 2 (MID-1 / MID-2)

CURATED QUESTION BANK

SECTION B: 5-MARK QUESTIONS (MEDIUM / CORE EXAM QUESTIONS)

5 MARKS EACH

Q1. Discuss about CSMA/CA protocol and CSMA/CD protocol? (Paper-1)

Q2. Explain different types of Controlled Access methods? (Paper-1)

Q3. Explain Standard Ethernet, Fast Ethernet (100 Mbps)? (Paper-1)

Q4. Explain Frequency Division Multiple Access (FDMA)? (Paper-1)

Q5. Explain pure ALOHA and Slotted ALOHA with diagrams? (Paper-2)

Q6. List the differences between Virtual Circuit and Datagram Networks? (Paper-2)

Q7. Explain Reservation and Polling Controlled Access methods? (Paper-2)

Q8. Explain different types of Time Division Multiple Access(TDMA)? (Paper-2)

Q9. Explain reservation-based MAC with an example. (Paper-3)

Q10. Explain FDMA and TDMA. (Paper-3)

Q11. Explain Standard Ethernet and its characteristics. (Paper-3)

Q12. Explain working of token passing with example. (Paper-3)

Q13. Explain the design issues in the network layer. (Paper-3)

Q14. Explain channelization techniques: FDMA, TDMA and CDMA. (MID-1)

VERIFIED EXAM SOURCES **UNIT-III: MAC Sublayer & Channelization**

Official Question Extraction Source Catalog:

- University End-Semester Model Question Paper 1 (Paper-1)
- University End-Semester Model Question Paper 2 (Paper-2)
- University Previous Question Paper - April 2026 (Paper-3)
- Department Mid-Term Examination 1 & 2 (MID-1 / MID-2)

CURATED QUESTION BANK

SECTION C: 10-MARK ESSAY & COMBINED QUESTIONS (FULL UNIVERSITY PATTERN)

10 MARKS EACH

QUESTION 1 [10 MARKS]:

Full 10M University Pattern

(a) Discuss about CSMA/CA protocol and CSMA/CD protocol? (Paper-1)

(b) Explain different types of Controlled Access methods? (Paper-1)

QUESTION 2 [10 MARKS]:

Full 10M University Pattern

(a) Explain Standard Ethernet, Fast Ethernet (100 Mbps)? (Paper-1)

(b) Explain Frequency Division Multiple Access (FDMA)? (Paper-1)

QUESTION 3 [10 MARKS]:

Full 10M University Pattern

(a) Explain pure ALOHA and Slotted ALOHA with diagrams? (Paper-2)

(b) List the differences between Virtual Circuit and Datagram Networks? (Paper-2)

QUESTION 4 [10 MARKS]:

Full 10M University Pattern

(a) Explain Reservation and Polling Controlled Access methods? (Paper-2)

(b) Explain different types of Time Division Multiple Access(TDMA)? (Paper-2)

QUESTION 5 [10 MARKS]:

Full 10M University Pattern

(a) Explain reservation-based MAC with an example. (Paper-3)

(b) Explain FDMA and TDMA. (Paper-3)

QUESTION 6 [10 MARKS]:

Full 10M University Pattern

(a) Explain Standard Ethernet and its characteristics. (Paper-3)

(b) Explain working of token passing with example. (Paper-3)

QUESTION 7 [10 MARKS]: Full 10M University Pattern

(a) Explain the design issues in the network layer. (Paper-3)

(b) Explain channelization techniques: FDMA, TDMA and CDMA. (MID-1)

UNIT – IV: NETWORK LAYER, ROUTING & CONGESTION CONTROL

QUESTION BANK

VERIFIED EXAM SOURCES **UNIT-IV: Network Layer, Routing & Congestion Control**

Official Question Extraction Source Catalog:

- University End-Semester Model Question Paper 1 (Paper-1)
- University End-Semester Model Question Paper 2 (Paper-2)
- University Previous Question Paper - April 2026 (Paper-3)
- Department Mid-Term Examination 2 (MID-2)

CURATED QUESTION BANK

SECTION A: 2-MARK QUESTIONS (SHORT ANSWER)

2 MARKS EACH

Q1. Explain the working of the shortest path routing algorithm? (Paper-1)

Q2. What is the count-to-infinity problem in distance vector routing? (Paper-1)

Q3. What is hierarchical routing and where is it used? (Paper-2)

Q4. What are the general principles of congestion control? (Paper-2)

Q5. Define a subnet. (Paper-3)

UNIT – IV: NETWORK LAYER, ROUTING & CONGESTION CONTROL

QUESTION BANK

VERIFIED EXAM SOURCES **UNIT-IV: Network Layer, Routing & Congestion Control**

Official Question Extraction Source Catalog:

- University End-Semester Model Question Paper 1 (Paper-1)
- University End-Semester Model Question Paper 2 (Paper-2)
- University Previous Question Paper - April 2026 (Paper-3)
- Department Mid-Term Examination 2 (MID-2)

CURATED QUESTION BANK

SECTION B: 5-MARK QUESTIONS (MEDIUM / CORE EXAM QUESTIONS)

5 MARKS EACH

Q1. What is flooding in the context of network routing?What are the advantages and disadvantages of flooding? (Paper-1)

Q2. Find the shortest path from source A to destination D in the given network below using Dijkstra Algorithm? (Paper-1)

Q3. Explain Leaky bucket algorithm with example? (Paper-1)

Q4. Explain any two Approaches which are followed for Congestion control in a computer network? (Paper-1)

Q5. Explain Distance Vector Routing in a computer network with Example? (Paper-2)

Q6. Explain Token bucket algorithm ? (Paper-2)

Q7. How is tunneling used in connecting incompatible networks? (Paper-2)

Q8. Describe the structure of an IPv4 datagram header ? (Paper-2)

Q9. Explain the IPv6 header format in detail. (Paper-3)

Q10. Explain methods to connect networks. (Paper-3)

Q11. Explain the IPv4 header format and addressing schemes including classful addressing, CIDR, and subnetting. (MID-2)

Q12. Discuss various routing algorithms used in the Network Layer, such as shortest path, distance vector, and link state. Explain their working principles and compare their advantages.

(MID-2)

UNIT – IV: NETWORK LAYER, ROUTING & CONGESTION CONTROL

QUESTION BANK

VERIFIED EXAM SOURCES **UNIT-IV: Network Layer, Routing & Congestion Control**

Official Question Extraction Source Catalog:

- University End-Semester Model Question Paper 1 (Paper-1)
- University End-Semester Model Question Paper 2 (Paper-2)
- University Previous Question Paper - April 2026 (Paper-3)
- Department Mid-Term Examination 2 (MID-2)

CURATED QUESTION BANK

SECTION C: 10-MARK ESSAY & COMBINED QUESTIONS (FULL UNIVERSITY PATTERN)

10 MARKS EACH

QUESTION 1 [10 MARKS]:

Full 10M University Pattern

(a) What is flooding in the context of network routing?What are the advantages and disadvantages of flooding? (Paper-1)

(b) Find the shortest path from source A to destination D in the given network below using Dijkstra Algorithm? (Paper-1)

QUESTION 2 [10 MARKS]:

Full 10M University Pattern

(a) Explain Leaky bucket algorithm with example? (Paper-1)

(b) Explain any two Approaches which are followed for Congestion control in a computer network? (Paper-1)

QUESTION 3 [10 MARKS]:

Full 10M University Pattern

(a) Explain Distance Vector Routing in a computer network with Example? (Paper-2)

(b) Explain Token bucket algorithm ? (Paper-2)

QUESTION 4 [10 MARKS]:

Full 10M University Pattern

(a) How is tunneling used in connecting incompatible networks? (Paper-2)

(b) Describe the structure of an IPv4 datagram header ? (Paper-2)

QUESTION 5 [10 MARKS]:

Full 10M University Pattern

(a) Explain the IPv6 header format in detail. (Paper-3)

(b) Explain methods to connect networks. (Paper-3)

QUESTION 6 [10 MARKS]: Full 10M University Pattern

(a) Explain the IPv4 header format and addressing schemes including classful addressing, CIDR, and subnetting. (MID-2)

(b) Discuss various routing algorithms used in the Network Layer, such as shortest path, distance vector, and link state. Explain their working principles and compare their advantages. (MID-2)

UNIT – V: TRANSPORT LAYER & APPLICATION LAYER

QUESTION BANK

VERIFIED EXAM SOURCES **UNIT-V: Transport Layer & Application Layer**

Official Question Extraction Source Catalog:

- University End-Semester Model Question Paper 1 (Paper-1)
- University End-Semester Model Question Paper 2 (Paper-2)
- University Previous Question Paper - April 2026 (Paper-3)
- Department Mid-Term Examination 2 (MID-2)

CURATED QUESTION BANK

SECTION A: 2-MARK QUESTIONS (SHORT ANSWER)

2 MARKS EACH

Q1. Differentiate between connection-oriented and connectionless transport protocols? (Paper-1)

Q2. Explain the structure of a UDP segment? (Paper-1)

Q3. What are the key features of TCP? (Paper-2)

Q4. How does TCP achieve error control? (Paper-2)

Q5. What is the role of the transport layer in the OSI model? (Paper-3)

Q6. Differentiate between local and remote logging. (Paper-3)

Q7. Name two services provided by the UDP protocol. (MID-2)

Q8. Define TELNET in the context of the Application Layer. (MID-2)

VERIFIED EXAM SOURCES **UNIT-V: Transport Layer & Application Layer**

Official Question Extraction Source Catalog:

- University End-Semester Model Question Paper 1 (Paper-1)
- University End-Semester Model Question Paper 2 (Paper-2)
- University Previous Question Paper - April 2026 (Paper-3)
- Department Mid-Term Examination 2 (MID-2)

CURATED QUESTION BANK

SECTION B: 5-MARK QUESTIONS (MEDIUM / CORE EXAM QUESTIONS)

5 MARKS EACH

Q1. Describe client server communication and HTTP request message format? (Paper-1)

Q2. Explain different services provided by Transport layer? (Paper-1)

Q3. How does TCP ensure reliable data transmission? Explain. (Paper-1)

Q4. Explain Domain Name System(DNS)? (Paper-1)

Q5. Describe the Structure of TCP segment Header ? (Paper-2)

Q6. Explain the architectural view of WWW? (Paper-2)

Q7. Describe the architecture of E-Mail and its services? (Paper-2)

Q8. Describe HTTP Response message format? (Paper-2)

Q9. List five differences between UDP and TCP. (Paper-3)

Q10. Explain the Transmission Control Protocol. (Paper-3)

Q11. Explain HTTP protocol in detail. (Paper-3)

Q12. Describe the TELNET protocol and discuss the difference between local and remote login in network communication (MID-2)

Q13. **Discuss the architecture of the World Wide Web and explain how HTTP functions as an application layer protocol. Include key features and typical request/response communication.** (MID-2)

VERIFIED EXAM SOURCES **UNIT-V: Transport Layer & Application Layer**

Official Question Extraction Source Catalog:

- University End-Semester Model Question Paper 1 (Paper-1)
- University End-Semester Model Question Paper 2 (Paper-2)
- University Previous Question Paper - April 2026 (Paper-3)
- Department Mid-Term Examination 2 (MID-2)

CURATED QUESTION BANK

SECTION C: 10-MARK ESSAY & COMBINED QUESTIONS (FULL UNIVERSITY PATTERN)

10 MARKS EACH

QUESTION 1 [10 MARKS]:

Full 10M University Pattern

(a) Describe client server communication and HTTP request message format? (Paper-1)

(b) Explain different services provided by Transport layer? (Paper-1)

QUESTION 2 [10 MARKS]:

Full 10M University Pattern

(a) How does TCP ensure reliable data transmission? Explain. (Paper-1)

(b) Explain Domain Name System(DNS)? (Paper-1)

QUESTION 3 [10 MARKS]:

Full 10M University Pattern

(a) Describe the Structure of TCP segment Header ? (Paper-2)

(b) Explain the architectural view of WWW? (Paper-2)

QUESTION 4 [10 MARKS]:

Full 10M University Pattern

(a) Describe the architecture of E-Mail and its services? (Paper-2)

(b) Describe HTTP Response message format? (Paper-2)

QUESTION 5 [10 MARKS]:

Full 10M University Pattern

(a) List five differences between UDP and TCP. (Paper-3)

(b) Explain the Transmission Control Protocol. (Paper-3)

QUESTION 6 [10 MARKS]:

Full 10M University Pattern

(a) Explain HTTP protocol in detail. (Paper-3)

(b) Describe the TELNET protocol and discuss the difference between local and remote login in network communication (MID-2)

QUESTION 7 [10 MARKS]: Full 10M University Pattern

Discuss the architecture of the World Wide Web and explain how HTTP functions as an application layer protocol. Include key features and typical request/response communication. [Comprehensive Essay Question with Architecture, Working, Diagram & Analysis] (MID-2)
